Justice For The Wrongfully Accused

Dustin has been wrongfully accused and thrown in jail. For the worst crime imaginable...stealing a balloon on balloon day. Together the father and daughter team must sneak past guards and hack security cameras to get away.

This will be no easy task because of the prison's Warden, who analyzes the security cameras like a hawk. The guards, while tired of their job, will notice anything out of place. Dustin and his daughter Rori will be able to communicate with each other through ear buds. If you get noticed to many times, you will be placed in solitary confinement.

DUSTIN – PRISONER (40s-50s)

Dustin has been wrongfully imprisoned. The days are long and difficult, revealing more of his gruff and foul attitude. He loves his daughter but would appreciate if she took the job a little more seriously. He's a big guy who's ready to taste freedom once again. / References: Master Chief (Halo), Solid Snake (Metal Gear Solid), Stallone and Arnold (Escape).

RORI – HACKER (20s)

Rori will be in a van overlooking the prison as she hacks into their network (unlocking doors and using security cameras). She's been cracking code since her early teens and has worked with her dad since she "left" college. Rori likes to lighten the mood, even if her dad doesn't find it funny. / References: Oracle (Batman), Katara (Avatar the Last Airbender).

A	<i>She unlocks a door.</i>	Abracadabra! Door open!

WARDEN – EYES EVERYWHERE (40s)

The Warden believes to be the overlord of the prison, where he rules with an iron fist. The slightest violation irritates him, he is like a balloon ready to pop. He sees his guards as tools at his disposal. His favourite new toy is the security cameras where he can see everything. The Warden will notify the guards if he finds anything suspicious. / References: Warden Norton (Shawshank).

E	<i>Dustin escapes. Furious.</i>	Impossible. He couldn't have escaped my prison! I am the lock and key!

SPEAKER SYSTEM

The speaker system is the artificial voice for the advanced security system. It relays orders to the prison and notifies the guards and warden. There is a sense of humanity within the voice. / References: Siri, Sonny (iRobot).

A	<i>Relaying stats.</i>	Fort Providence Correctional Facility is at ninety-eight percent alertness.
B	<i>Notifying the warden.</i>	The cafeteria is now closed. Any intrusion will be notified.

B	<i>Catching the prisoner.</i>	Got you, balloon thief!
C	<i>Chasing Dustin.</i>	You'll never escape!

Narration (Rory):

My father was wrongfully imprisoned...it's my job to get him out. I know the warden set him up!

My father is a good man that would never commit the heinous crime he was imprisoned for.

Stealing a balloon on balloon day!?! That is only for the most elite criminals.

Lucky for me, I got a guy on the inside. Once he gives the bug to my dad, I am gonna help him escape!
